WHISPER LEGACY
Category : XBOX360-MODDING

The latetest generation of Whisper Fans: the Whisper Legacy

Banish heat forever with the new Whisper Legacy. Sporting a newly designed, front mounted "Nitro Switch", the Whisper Legacy makes it easier than ever to expel unwanted heat. The Whisper Legacy continues to come with blue LED lights installed, although you can use no LEDs or switch to red or green lights (also included).

The Whisper Legacy also enjoys the status of being the "quietest rated fan" that Talismoon has ever produced thanks to the newest mechanism available, a sealed oil chamber that provides less friction than ball bearings.

Every Whisper Legacy comes with a bonus: the "Abzorber" noise vibration reduction system, in every package. To help reduce DVD drive vibration noise.
